AK Scientific, Inc.

Safety Data Sheet (United States) Trifluoroacetic anhydride

1.Identification	
Product name:	Trifluoroacetic anhydride
Catalog#:	0928CA
IUPAC name:	(2,2,2-trifluoroacetyl) 2,2,2-trifluoroacetate
Product use restrictions:	Only for research and development use by, or directly under the supervision
	of, a technically qualified individual.
Company:	AK Scientific, Inc.
	30023 Ahern Ave.
	Union City, CA 94587
Telephone:	(510) 429-8835
Fax:	(510) 429-8836
Website:	www.aksci.com
Emergency contact number	: 1-800-633-8253 United States & Canada
	1-801-629-0667 International

2.Hazard Identification:

GHS Classification (United States) Skin Corr. (category 1B) Acute Tox. (category 4) Aquatic Chronic (category 3)

Pictogram(s)

Signal word:

Danger

Hazard statement(s)

H314	()	Causes severe skin burns and eye damage.
H332		Harmful if inhaled.
H412		Harmful to aquatic life with long lasting effects.

Precautionary statement(s)

i i coudionary s	atement(5).
P260	Do not breathe dust/fume/gas/mist/vapors/spray.
P261	Avoid breathing dust/fume/gas/mist/vapors/spray.
P264	Wash skin thoroughly after handling.
P271	Use only outdoors or in a well-ventilated area.
P273	Avoid release to the environment.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P301+P330+P331	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303+P361+P353	IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.
	Rinse skin with water/shower.
P304+P312	IF INHALED: Call a poison center or doctor if you feel unwell.
P304+P340	IF INHALED: Remove to fresh air and keep at rest in a position comfortable for
	breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses,
	if present and easy to do. Continue rinsing.
P310	Immediately call a poison center or doctor.
P312	Call a poison center or doctor if you feel unwell.
P321	Specific treatment (see supplemental first aid instructions on this label).
P363	Wash contaminated clothing before reuse.
P405	Store locked up.

P501 Dispose of contents/container to an approved waste disposal plant.

Hazards not otherwise classified (HNOC) or not covered by GHS:

none

3.Composition/Information on Ingredients		
Synonyms:	TFAA	
CAS#:	407-25-0	
Purity:	99%	
EC:	206-982-9	

4. First Aid Measures

General Information: Immediately remove any clothing contaminated by the product. Move out of dangerous area. Consult a physician and show this safety data sheet.

Inhalation: Move person to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Obtain medical aid.

Skin contact: Immediately flush skin with running water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Obtain medical aid immediately. **Eye contact:** Immediately flush open eyes with running water for at least 15 minutes. Obtain medical aid immediately.

Ingestion: Do NOT induce vomiting without medical advice. Rinse mouth with water. Never administer anything by mouth to an unconscious person. Obtain medical aid immediately.

Most important symptoms and effects, both acute and delayed: No further information available. Please see sections 2 and 11.

Indication of any immediate medical attention and special treatment needed: No further information available.

5. Fire Fighting Measures

Suitable extinguishing media: Use water spray, dry chemical, carbon dioxide, or chemical foam. **Specific hazards arising from the chemical:** Carbon oxides, Hydrogen fluoride.

Advice for firefighters: As in any fire, wear a NIOSH-approved or equivalent, pressure-demand, self-contained breathing apparatus and full protective gear. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures: Wear protective equipment and keep unprotected personnel away. Ensure adequate ventilation. Remove all sources of ignition. Prevent further leak or spill if safe to do so. For personal protective equipment, please refer to section 8.

Environmental precautions: Do not let product enter drains, other waterways, or soil.

Methods and materials for containment and cleaning up: Prevent further leak or spill if safe to do so. Vacuum, sweep up, or absorb with inert material and place into a suitable disposal container. Consult local regulations for disposal. See section 13 for further disposal information.

7. Handling and Storage

Precautions for safe handling: Avoid contact with skin, eyes, and personal clothing. Wash hands thoroughly after handling. Avoid breathing fumes. Use only with adequate ventilation. Wear suitable protective clothing, gloves, and eye/face protection. Keep away from sources of ignition. Minimize dust

generation and accumulation. Keep container tightly closed. Open and handle container with care. Do not eat, drink, or smoke while handling.

Conditions for safe storage, including any incompatibilities: Store in a tightly-closed container when not in use. Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from sources of ignition. ,Store long-term in a cool, dry place.

8. Exposure Controls/Personal Protection

Exposure limits:

OSHA PEL:	Not available.
NIOSH REL:	Not available.
ACGIH TLV:	Not available.

Appropriate engineering controls: Avoid contact with skin, eyes, and clothing. Wash hands before breaks and immediately after handling the product. Facilities storing or utilizing this material should be equipped with an eyewash fountain. Use adequate general and local exhaust ventilation to keep airborne concentrations low.

Personal protection

Based on an evaluation of the eye or face hazards present, wear chemical splash-resistant Eyes: safety glasses or goggles with side protection. A face shield may be appropriate in some workplaces. Use eyewear tested and approved under appropriate government standards such as OSHA 29 CFR 1910.133 or EU EN166. Hands: Wear gloves selected based on an evaluation of the possible hazards to hands and skin, the duration of use, the physical conditions of the workplace, and the chemical resistance and physical properties of the glove material. Skin and body: Protective clothing must be selected based on the hazards present in the workplace, the physical environment, the duration of exposure, and other factors. No fabric can provide protection against all potential hazards; therefore it is important to select the appropriate protective clothing for each specific hazard. At the minimum, wear a laboratory coat and close-toed footwear. Respirators are not a substitute for accepted engineering control measures such as **Respiratory:** enclosure or confinement of the operation, general and local ventilation, and substitution of less toxic materials. When respiratory personal protective equipment is appropriate based on an assessment of respiratory hazards in the workplace, use a NIOSH- or CEN-certified respirator.

9. Physical and Chemical Properties		
Physical State:	Liquid	
Molecular Formula:	C4F6O3	
Molecular Weight:	210.03	
Odor:	Not available.	
pH:	Not available.	
Boiling Point Range:	39.5-40°C (lit.)	
Freezing/Melting Point:	65°C (lit.)	
Flash Point:	Not available.	
Evaporation Rate:	Not available.	
Flammability(solid,gas):	Please see section 2.	
Explosive limits:	Not available.	
Vapor Pressure:	Not available.	
Vapor Density:	Not available.	
Solubility:	Miscible with benzene, dichloromethane, diethyl ether,	
	dimethylformamide, terahydrofuran and acetonitrile.	
Relative Density:	1.511 g/mL at 20°C (lit.)	
Refractive Index:	1.3 (lit.)	
Volatility:	Not available.	

Auto-ignition Temperature: Not available. Decomposition Temperature: Not available. Partition Coefficient: Not available.

10. Stability and Reactivity

Reactivity: Chemical stability: Possibility of hazardous reactions: Conditions to avoid: Incompatible materials: Hazardous decomposition products: Not available. Stable under recommended temperatures and pressures. Not available. Dust generation. Strong oxidizing agents. Carbon oxides, Hydrogen fluoride.

11. Toxicological Information

i i i exicere giear internation	
RTECS#	Not available.
Acute toxicity:	Not available.
Routes of exposure:	Inhalation, eye contact, skin contact, ingestion.
Symptoms related to the physical, chemical and	Skin contact may result in inflammation
toxicological characteristics:	characterized by itching, scaling, reddening,
-	blistering, pain or dryness. Eye contact may result
	in redness, pain or severe eye damage. Inhalation
	may cause irritation of the lungs and respiratory
	system. Overexposure may result in serious illness
	or death.

Carcinogenicity

IARC:Not classified.NTP:Not listed.OSHA:Not Available..Acute toxic effects:Inflammation of the eye is characterized by redness, watering, and itching. Skin
inflammation is characterized by itching, scaling, reddening, or, occasionally,
blistering.

12. Ecological Information Not available. Ecotoxicity: Not available. Persistence and degradability: Bioaccumulative potential: Not available. Mobility in soil: Not available. Other adverse effects: Not available. 13. Disposal Considerations Disposal of waste: Not listed Disposal of packaging: Not listed **14. Transportation Information DOT (United States)** UN number: UN3265 Proper shipping name: Corrosive liquid, acidic, organic, n.o.s.
